This Gazetteer is issued as a standard component of the National Intelligence Survey for Angola and lists official standard names approved by the United States Board on Geographic Names. These names supersede all previous decisions on geographic names in this area. This Gazetteer also lists the variants of official standard names for reference purposes. These variants are not approved as standard names.

This Gazetteer will be adequately maintained by published revision.

Distribution of this publication is made by the Central Intelligence Agency and is for official use only.

FOREWORD

This gazetteer contains about 19,200 entries for places and features in Angola, including Cabinda. The entries include approved standard names and unapproved variant names, the latter cross-referenced to the standard names. *Users of the gazetteer should always refer to main entries for approved names.*

The names in this gazetteer supersede those in all previous Board lists for the area.

The scale of map coverage is about 1:1,500,000 except for small areas which are covered at 1:250,000.

Interpretation of entries

It has been necessary to express in code numbers and letters some of the information in the gazetteer in order to accommodate it to the machine method of tabulation.

Name.—Approved standard names and unapproved variant names appear in the first column. The variant names are always cross-referenced to the standard names by use of the word "see." Where part of a standard name is underlined, the use of the nonunderlined part is optional. Where two or more names are approved for a feature, each is identified in parentheses and any or all may be used. Names that consist of specific and other elements (except names of populated places) are regularly alphabetized by specific part; thus Ponta do Quinzáu is listed as Quinzáu, Ponta do. Diacritic marks include the acute accent (as in Luége), the grave accent (Camitôa), the circumflex (Pêlo), the tilde (São Tomê), and the cedilla (Caniço). The same marks are to be used whether the names are written in all capitals or in capitals and lowercase letters.

Designation.—The second column contains designations or abbreviations of designations, as follows:

Latitude and longitude.—Coordinates, in the third and fourth columns, are for finding purposes only. They were read to the nearest minute.

Administrative division.--The number in the fifth column indicates the area in which the place is located: 557, Angola proper; 55750, Cabinda.

Locational reference.--The number in the last column refers to a map or chart on which the feature may be located by its standard name or a recognizable variant of its standard name, as follows:

- 01 *Carta da Colônia de Angola*, Ministério das Colônias, 1945-53; scale 1:250,000.
- 02 *Carta de Angola*, Ministério das Colônias, 1934-36; scale 1:1,500,000.
- 03 *Atlas de Portugal Ultramarino*, Ministério das Colônias, 1948.
- 04 *Carta de Angola*, Instituto Geográfico e Cadastral, 1948; scale 1:2,000,000.
- 05 *Carta da Colônia de Angola*, Rede de Estradas, 1948; scale 1:1,500,000.
- 06 Portuguese hydrographic charts.

The code 00 is used for cross-references and for standard names to be found only on references other than those listed above.
